

# FieldLink<sup>®</sup> PROFINET cable

with additional rodent protection for permanent installation

## ADVANTAGES

- Steel tape for rodent protection
- The metal provides EMC performance
- After removing the steel tape a quick field assembly with current industrial connectors (RJ 45 + M12) is possible
- Cable for direct burial
- Crush resistant
- Sunlight resistant for outdoor use

The FieldLink product range provides cables solutions for most types of current bus systems (e.g. Industrial Ethernet, PROFIBUS, INTERBUS, DeviceNet, CAN, CC-Link, EIB und AS-Interface). Specially designed for the requirements of Industrial Ethernet applications, the FieldLink product range offers cables that guarantee good transmission properties in harsh industrial environments.

In addition to PROFINET types A, B and C, BizLink offers a PROFINET cable with rodent protection. Fitted with a cable armor made of steel, the cable can withstand attacks by rodents and is additionally crush resistant.

BizLink Special Cables Germany is a member of PROFIBUS International
